

InsolvencySTREAM™ by Canaccede is a fully customizable, scalable and modern insolvency receivables administration platform that allows you to gain more from your insolvent accounts.

What is InsolvencySTREAM?

- It is an advanced SaaS based insolvency management platform and technology built using a modern infrastructure, customizable to specific client preferences.
- The technology is deployed directly into bank operational sites, and provides an interface for users to receive notices of insolvency, input proper account characteristics, monitor and report on financial and activity trends, and receive alerts based on custom requirements.
- It gives creditors the flexibility to pick the solution they want. Whether it is solely servicing, or having Canaccede process and monetize accounts, there is a tailored solution for any need.

Who is Canaccede?

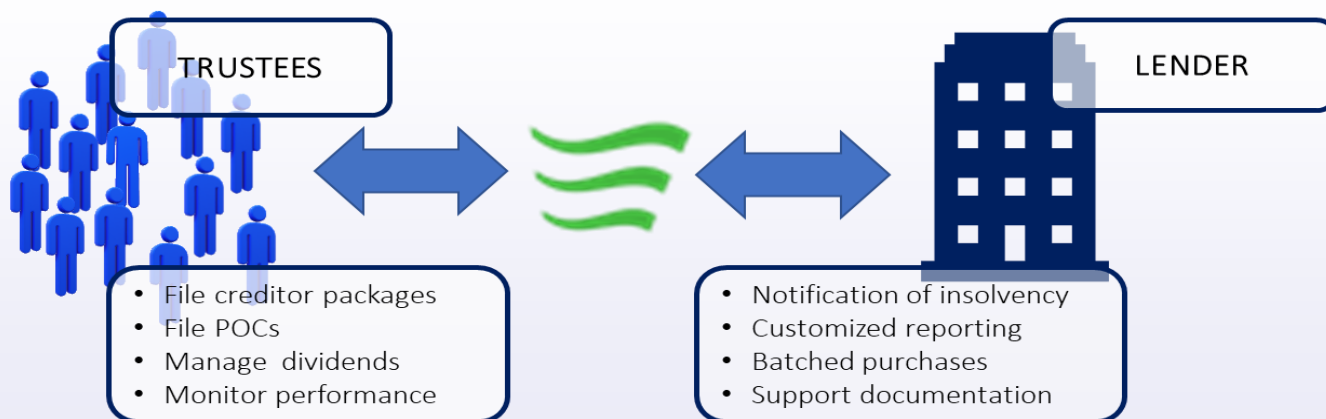

- Canaccede Financial Group is the creator of InsolvencySTREAM. They designed the system to fulfill the needs of their bank and lending clients under-served by the quality of delivery in the insolvency industry.
- Canaccede is Canada's largest multi-asset receivables acquirer and servicer, with extensive experience managing assets in a wide spectrum of delinquency levels requiring differing realization strategies. With offices in Toronto and London (Ontario), the company manages over \$4 billion in receivables across more than 600,000 Canadian accounts.

Why Canaccede?

- Partnering with Canaccede offers the peace of mind of working with the largest and most experienced receivables buyer in Canada.
- Canaccede has the expertise to integrate seamlessly with our partners' operations to provide the value-added services that they need.

How Does InsolvencySTREAM Work?

Why we are different...

InsolvencySTREAM administers and values insolvent receivables

- Extensive experience in the insolvency processing and management industry, across numerous asset classes.
- Flexible, advanced infrastructure which integrates across multiple platforms.
- Customized solution for your organization's specific needs.

InsolvencySTREAM is available as a service-only or a fully-wrapped purchase and service solution

- Offers either or both servicing and purchasing functions.
- Optimizes your return while limiting unnecessary operational burdens.

Canaccede is an active manager of insolvency accounts

- We are the only fully-integrated service and purchasing provider in Canada.
- We don't outsource administration.
- We have a vested interest in optimizing the value from accounts.
- We protect your brand at all costs.
